

Barriers

Our temporary barriers provide a durable and flexible solution for crowd control, pedestrian management and restricted access across construction sites, events and public spaces. Available in fixed leg, heavy duty and walk-through options, they are designed for quick installation, secure connection and easy relocation.

RETHYNC

Key Features:

- Heavy duty and lightweight fixed leg options available
- Strong galvanised steel construction for long-term durability
- Interlocking hook and eye system for secure installation
- Fixed leg design for stability on a range of surfaces
- Walk-through barriers create controlled pedestrian access points
- Hot dip galvanised or powder coated finishes available
- Easy to install, relocate, transport and store
- Suitable for construction sites, events, roadworks and public spaces
